Technical Skills

- React Js
- JavaScript
- PHP
- Laravel
- MySql
- JQuery
- Web API
- Git
- HTML,CSS

Education

Bachelor of Engineering
Electronic &TeleCommunication
Amravati, Maharashtra
2014 – 2018
Prof. Ram Meghe Institute
of Technology
&Research,Amravati

Language

- Marathi
- English
- Hindi

Summary

2+ years experienced in software development with hands-on experience in developing web application using React Js, php, Laravel, JavaScript and Web API and identifying web-based user interactions along with designing & implementing web application. Proficient in translating designs & wireframes into high-quality code, and writing application interface code via JavaScript. Experience in design, coding, testing and debugging

Work Experience

Front End Developer
Iboon Technologies / Ahmedabad December 2020 – Present

Project :- MedProximity

UI Components Designing & Application Interface Coding

- Identified web-based user interactions and developed highly-responsive user interface components via React concepts
- Translated designs & wireframes into high-quality code and wrote application interface code via JavaScript following React.js workflows

Code Debugging & Front-end Architecture

- Troubleshoot interface software and debugged application codes to improve functionality
- Developed and implemented front-end architecture to support user interface concepts with 100% accuracy

Application Development & UI Designing

- Coordinated with the development team to discuss user interface ideas and applications
- Reviewed application requirements and interface designs to ensure compatibility with existing applications

Performance Optimization & Features Development

- Developed the latest user-facing features using React.js and built reusable components & front-end libraries for future use
- Optimized components for maximum performance across a vast array of web-capable devices and browsers

Back End Developer
Iboon Technologies / Ahmedabad December 2020 – Present

Project :- Digilnstitute

- Experience developing web applications on modern MVC PHP frameworks such as Laravel
- Performing back-end and User Interface (UI) tests to enhance the functionality of an application
- Created features to enhance the user experience while ensuring that the web design is optimized for smartphones
- Employed a variety of languages such as HTML and CSS to write & create user-friendly web pages
- Design and maintain databases
- Collaborate with project managers, co-developers, software testers, and web designers to complete project requirements
-

Trainee Software Developer
Bawane Techsoft / Pune January 2020 – December-2020

Project :- Hello CRM

- Writing back-end code and building efficient PHP modules.
- Integrating data storage solutions.
- Designing web pages using HTML, CSS and JavaScript
- Wrote JavaScript functions to handle complex form validation, multiple windows targeting, and dynamic form element updating
- New user registration forms are created in HTML embedded with PHP
